

Navigation Report 8-9-23

1. We have had few high-water events, nothing major. Everyone seemed prepared and we had no issues in our area. Please keep this up. Do not let crews get complacent.
2. Summary of 2023 Lock Closures in Pittsburgh
 - a. **New Cumberland 05-29-23 through 08-18-23** (Finish Anchorage work, install new miter gates, Aux Chamber) (Minor Delays expected) (This is delayed and has affected the start of the Montgomery outage)
 - b. **Montgomery Changes**
 - i. Main Chamber closures
 1. Sept 5 – Sept 25th
 2. Oct 17th – Nov 22nd
 3. Nov 26th – Dec 22nd
 - ii. Aux Chamber closures
 1. Sept 2nd – Sept 5th
 2. Sept 25th – Oct 17th
 3. Nov 22nd – Nov 25th
 - iii. **Note: during the large chamber openings there WILL NOT be a 70' width restriction. We will have the whole chamber, which is a big advantage on clearing the delays out.**
3. New Ken Bridge Issue. They had wires hanging down lower than they should have been into the navigation channel. We got it fixed but It took a few days to reach anyone at the bridge and the construction site. I would like to see us able to do that sooner before an accident happens.
