

Navigation Report 4-13-22

1. -Emsworth outage - primary lock chamber at Emsworth L/D will be closed from 6:00 AM February 22, 2022, through 11:59 PM April 15, 2022. The 56-ft x 360-ft auxiliary chamber will remain open to navigation during this time. As of right now Emsworth is on schedule. Delays are significant, no changes to this.
2. Dashields Primary Chamber outage – Started March 07, 2022, and opened as scheduled. Last night on 4-12-22 a vessel had an allision with the gates. The lock is currently closed for evaluation. I hope to have updates at the meeting. Total River Closure currently.
3. Dashields Aux Chamber Outage – Started April 1, 2022, and runs through April 22, 2022.
4. River conditions – We have some higher than normal flows and elevation. We need to stress to crews, fleets, and docks the importance of not getting complacent.
