

Navigation Report

7-13-22

1. Fairly uneventful month. Not much to discuss related to high water and/or conditions.
 - a. We have seen frequent high wind and high impact storms, so we will continue to get that info to you as quickly as possible.

2. Closures
 - a. Montgomery Aux Chamber Tuesdays and Wednesday Through August 3rd. (minor impacts)
 - b. Cannelton Closure going on currently through 11-11-22 (minor delays)
 - c. Bellville and Greenup both opened, as far as Industry is concerned both outages went smooth.

3. I want to Stress again the importance of having appropriate watches on hand when transiting heavy motorboat populated areas, and in general reminding crews about the summer pleasure crafts. We do not want any incidents in Pittsburgh. We have a very busy sector for Pleasure Craft, we need to do our jobs on continuing the education and awareness of our crews.

UPDATE – JULY 28, 2022

4. ***WAP and USACE are having current discussions about Pt. Marion lock having a closure. We will get information out as soon as we have firm details***
