

## Navigation Report

### 3-9-22

1. -Emsworth outage - primary lock chamber at Emsworth L/D will be closed from 6:00 AM February 22, 2022 through 11:59 PM April 15, 2022. The 56-ft x 360-ft auxiliary chamber will remain open to navigation during this time. As of right now with current predictions it looks as if we will be shut down again starting sometime tomorrow (Tuesday) I understand this report is done early, I will have an updated version the day of the meeting with all the moving parts. Approximately 134 cuts in line at the lock currently.
2. Dashiels Primary Chamber outage – this will start March 07, 2022 and run through March 31, 2022. (Expect major delays, this will run in conjunction of Emsworth)
3. Dashiels Aux Chamber Outage – this will start April 1, 2022 and run through April 22, 2022.
4. River conditions – We have another high-water event approaching. I have sent emails to Industry, and all are aware. We will continue to monitor.
5. The Bridge Projects on the Allegheny are underway. An email has been sent out to Industry as well for this project.
