

Who Works the Rivers Friday, April 29, 2022

Top Left: 83 Students from 7 schools participate in the 2022 Who Works the Rivers

Top Right: USACE educates students on their role on the inland waterways and advise what it takes to get a job in their organization

Middle Left: ITS and Rivers of Steel allow students to handle lines and advise what type of education you need to get a job working the waterways. Patterson Mfg. discussed the types of jobs available in manufacturing regarding items commonly used on the waterways. Patterson displayed a winch which they manufacture.

Middle Right: Pittsburgh Fire & EMS show students their "office" and talk about PPE required to work on the waterways.

Bottom Left: Ingram Barge educate students regarding commodities commonly moved on our inland waterways and what types of jobs are available.

Waterways Association
